A Course In Miracles

Introduction

"This is a course in miracles. It is a required course. Only the time you take it is voluntary. Free will does not mean that you can establish the curriculum. It means only that you can elect what you want to take at a given time. The course does not aim at teaching the meaning of love, for that is beyond what can be taught. It does aim, however, at removing the blocks to the awareness of love's presence, which is your natural inheritance. The opposite of love is fear, but what is all encompassing can have no opposite. This course can therefore be summed up very simply in this way:

Nothing real can be threatened.

Nothing unreal exists.

Herein lies the peace of God".

The Miracle Worker

The next in the series of Mortal Man's Guide to Enlightenment is "The Miracle Worker". Reciting from the introduction to the Workbook of A Course in Miracles :

"A theoretical foundation such as the text is necessary as a background to make these exercises meaningful. Yet it is the exercises which will make the goal possible. An untrained mind can accomplish nothing. It is the purpose of these exercises to train the mind to think along the lines which the course sets forth".

In this new series we will undergo a "crash-course" to place this theoretical foundation deep in our awareness. To make further practice as the Miracle Worker meaningful.

The format

We will go through the chapters quite quickly, in order to discover the thinking along the lines that are presented. We have divided the 31 chapters into 10 steps. Per week one step. Three chapters a week. It seems impossible, but see it like this. This will give you a great overview in what is presented in the chapters and have every opportunity to study further, any time you want.
